RE: Liquidation following notification of ITC negative determination of critical circumstances for monosodium glutamate from the People's Republic of China (A-570-992)

1. On 11/17/2014, the U.S. International Trade Commission (ITC) determined that critical circumstances do not exist with respect to monosodium glutamate (MSG) from the People's Republic of China (PRC). As a result of the ITC's negative determination of critical circumstances, U.S. Customs and Border Protection (CBP) should terminate the suspension of liquidation for all shipments of MSG from the PRC that were entered, or withdrawn from warehouse, for consumption before 05/08/2014 (the date of Commerce's affirmative preliminary determination notice in the Federal Register). All such entries should be liquidated without regard to antidumping duties (i.e., return all cash deposits).
2. Do not liquidate merchandise entered on or after 05/08/2014 until specific liquidation instructions are issued.
3. Notice of lifting of suspension of liquidation of entries of merchandise entered, or withdrawn from warehouse, for consumption before 05/08/2014 (the date of publication of Commerce's preliminary determination notice in the Federal Register) occurred with the publication of the ITC's final determination of its investigation (79 FR 68481, 11/17/2014). For all other shipments of MSG from the PRC, continue to collect cash deposits of estimated antidumping duties for the merchandise at the current rates unless instructed otherwise.
4. The interest provisions of section 778 of the Tariff Act of 1930, as amended, do not apply.
